Collaboration with Fantasista Utamaro!

Welcoming Foreign Visitors with Japanese Traditional Pop Artwork

-ATM Wrapping Project-

Seven Bank (Seven Bank, Ltd.; Head Office: Chiyoda-ku, Tokyo; President and Representative Director: Masaaki Matsushashi) is collaborating with Fantasista Utamaro, a New York-based artist, on a design project on Seven Bank ATMs in Kabukicho (Shinjuku-ku, Tokyo); Shimbashi (Minato-ku, Toyo); and Diamor Osaka (Osaka-shi, Osaka). The ATMs with unique decorations and special effects will welcome customers for a limited time.

<Wrapping Design>

<Digital Signage>

Inspired by Japanese traditional performing arts, Utamaro created the design under the theme of *Omotenashi*, or hospitality, and embodies “endless proliferation,” a concept that is at the base of all his works. Utamaro’s comment: I am extremely honored to be a part of the Seven Bank’s ATM wrapping project. As my life concept, I created the artwork, hoping that foreign visitors’ stay in Japan will be more memorable and this project will lead to a further blossoming of the Japanese culture.”

Digital signage in the ATM section will show videos with neo-Japanese pop music. Furthermore, by scanning the QR code on the artwork with your smartphone, you can activate Instagram Stories and create your original images using AR filters. Seven Bank’s ATMs accept cards issued overseas, and the space provides a unique experience linked to innovative Japanese art and SNS for all our customers, including foreign visitors.

<QR コード>

We expect the number of foreign visitors and residents to gradually increase as Japan eases its border restrictions significantly. More than 26,000 Seven Bank ATMs nationwide cater to a wide range of needs for cash withdrawal: customers can choose from 12 languages for screen and withdraw Japanese yen with major foreign-issued cards. The ATMs also offer DCC services in 34 currencies.

We are constantly striving to improve our services further to realize Seven Bank’s purpose: Create a better version of daily life by going beyond the wishes of our customers.
